## SUMMARY

---

MERN Stack Developer with hands-on experience building scalable **web** applications using **MongoDB**, **Express.js**, **React.js**, and **Node.js**. Skilled in developing full-stack solutions, integrating APIs, and creating data-driven features using modern **JavaScript (ES6+)**. Open to opportunities where I can contribute to building impactful, real-world products.

## SKILLS

---

**Programming Languages:** JavaScript, C, Python, Java

**Technologies/Frameworks:** React.js, Tailwind CSS, Material UI, Redux Toolkit

**Backend:** Node.js, Express.js, Firebase, REST APIs

**Databases:** MongoDB, MySQL

**Tools:** VS Code, Git/GitHub, Jira, AWS, Figma, Netlify, Vercel

## EXPERIENCE

---

**Web Development Intern**, Codeclause Dec 2023 – Feb 2024

- Built responsive, scalable, and cross-browser compatible web applications using React.js, JavaScript, HTML, and CSS, optimizing performance through component refactoring and debugging.
- Integrated third-party APIs for real-time data visualization and dynamic features while collaborating via Git-based workflows to deliver clean, maintainable, and production-ready code.

## PROJECTS

---

**FinTrackr — Personal Finance Tracker** [Live](#) | [GitHub](#)

*React.js, Ant Design, Firebase*

- Developed a user-friendly personal finance management application using **React.js** and **Ant Design** with a clean, responsive UI.
- Integrated **Firebase Authentication** and **Firestore** with react-firebase-hooks to enable secure access and real-time income and expense tracking.
- Built an interactive dashboard with financial analytics, transaction search/sorting, and CSV import/export functionality for efficient data management.

**CryptoPulse – Crypto Tracking Platform** [Live](#) | [GitHub](#)

*React.js, Material UI, Framer Motion*

- Built a responsive cryptocurrency dashboard to track real-time prices, market cap, and volume of digital assets using live **API** data.
- Integrated real-time data and used **Chart.js** to implement interactive price history charts with dual-axis graphs for historical and multi-coin analysis.
- Designed a modern user interface using **Material UI** and implemented smooth animations and transitions with **Framer Motion** to enhance user engagement and overall visual experience.

**Lanceify — Creative Freelance Marketplace** [GitHub](#)

*MongoDB, Express.js, React.js, Node.js*

- Built a full-stack freelance marketplace using the **MERN** stack with secure **JWT authentication** and role-based access control.
- Developed **RESTful APIs** using **Express.js** and **Node.js** with cookie-based authentication and structured backend logic.
- Designed and managed MongoDB schemas using Mongoose to handle users, projects, and proposals with efficient **CRUD** operations and seamless frontend–backend integration.

## EDUCATION

---

**Bachelor of Engineering (B.E.) in Computer Engineering**

Gharda Institute of Technology, Mumbai University, Maharashtra

2021 – 2025

**CGPA: 8.05/10**
